

FILTER 230 V

Item number

EP10426988

GTIN

4015120426988

Product description

- Filter for suppression of inductive loads, such as relays, contactors, fluorescent lamps and transformers
- Compact design for flexible use

Technical data

GENERAL

Device category	Electrical accessories
Conformity	CE, EAC, RoHS

ATTACHMENT

Length of cable	0,04 m
-----------------	--------

HOUSING

Dimensions	Length 62 mm x Width 26 mm x Height/Depth 10 mm
------------	---

Weight	1 g
Material	Plastic (UL94V-0)
Protection type	IP20
Permissible ambient temperature	-40 °C...+85 °C
Colour	grey

ELECTRICAL VERSION

Protection class	II
Nominal voltage	230 V ~

Dimension drawing

Circuit diagram

Protects against inductive loads.

FILTER 230 V

Item number

GTIN

EP10426988

4015120426988

Circuit diagram

Protects against power failures.

Circuit diagram

Protects against inductive loads and power failures.

Circuit diagram

Protects against interference by coupling into the S and P cables.

Detailed product description

- Filter for suppression of inductive loads, such as relays, contactors, fluorescent lamps and transformers
- Compact design for flexible use
